Office of the Under Secretary

20 October 1964

MEMORANDUM FOR THE CHAIRMAN, COMOR

SUBJECT: Systems Analysis Study Group

1. Dr. McMillan has directed that I head an ad hoc study group to see if a pilot model solution can be developed to be used as an aid in translating expressed intelligence requirements into collection systems analysis. This group will initially examine only the categories of Air Bases/Aircraft, etc., and Naval Vessels/Ports, etc. Because of the categories initially selected for examination the (S) DNRO has asked for and is receiving support from NPIC, SAC, and ONI.

2. We will try to complete this task in a manner and with a format never before attempted. Without reference to systems or capabilities we will attempt to define and format the key elements which must be identified in photography that will permit that progressively detailed analysis which will back a statement of the significant characteristics and status of each target.

3. If this initial experiment proves useful, I am sure Dr. McMillan will be pleased to present the findings to the COMOR for whatever use they may want to make of it.
